

MARTINA HINGIS

## ULTIMATE POWER

Martina needs a racquet that can deliver time and time again. For her there's only one choice. The RQS Series from Yonex.

By combining three unique Yonex technologies we have produced a series of racquets that create the perfect fusion of power and control. The Power Isometric head shape increases power with a 20% larger sweet spot whilst Elastic Ti – the world's first nanoscale alloy – produces a soft feel at impact maintaining effortless power and control. Finally the Dual 3D Stabiliser reduces twisting forces for enhanced face control and manoeuvrability.

The RQS Series – Ultimate Power

RQS 11

RQS 22

RQS 33

*One hundred and ten percent.*
